Benepower.ai/resources

Included in your plan is our primary care provider's comprehensive health risk assessment, which helps identify your current health challenges and shows future issues before they start.

What's included in your plan:

Dedicated physician

Choose your preferred physician and see them for every virtual visit.

Simple at-home labs

Lab tests are shipped to your home with a prepaid return label included.

Easy prescription pickup

Your physician will send any prescribed medications to your preferred pharmacy.

Condition management

Specialized, ongoing care for chronic conditions.
